To

The Principal
As per list enclosed

Subject: Undertaking joint research work with collaborating Homeopathic medical colleges and completion of 03 years of our agreement reg.

Sir/Madam

Greetings from CCRH!!

This is in reference to our MoU under the initiative of *National collaboration with Homeopathic medical colleges for Linking research with education* signed during the period 2016-2019, for collaboration in training and research.

It has been a good experience interacting with the colleges so far, through various research methodology workshops / orientation programs/ focused sessions during World Homoeopathy Day celebrations. In the last 03 years, we have been able to send resource persons to give lectures in research orientation programmes; open research OPDs in colleges; capture data in research mode; develop joint research protocols and also initiate few clinical research studies. Nodal officers from CCRH Institutes located near to the colleges have also been available to guide the colleges as and when required.

However, we haven't received any communication from few colleges so far for undertaking any joint collaborative research studies. As we are nearing the completion of our agreement in April 2021, we invite interested colleges to send concept proposals for undertaking any research work, if any.

Concepts may be shared as per the EOI scheme of CCRH in the prescribed format Annexure I A-C available on the CCRH website at <https://www.ccrhindia.nic.in/admnis/admin/showimg.aspx?ID=3474>. Bio data of the Principal investigator/ nodal officer from the college applying with the concept needs to be enclosed as well.

Submitted proposals shall undergo technical evaluation and shall be reviewed by our scientific committee for approval. Research studies may be planned by the colleges within the available resources of the college for which technical guidance shall be provided by CCRH. Studies

requiring any financial assistance from CCRH shall be reviewed and decision for the same shall be taken by the Scientific Advisory Board (SAB) of CCRH. Budget allocation for conducting collaborative research work with colleges is limited and so, financial assistance shall depend upon the factors like novelty of proposed work and its transitional value in public health.

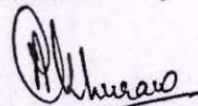

If interested, you are requested to share concepts and develop them jointly with CCRH Institutes/ CCRH headquarters by mid-March 2021, which can thereafter be shared with CCRH headquarters for review & approval. List of nearby CCRH Institutes is enclosed along with the name & contact details of the Officer In charge(s)/ identified Nodal officers at Institutes or CCRH headquarters.

MoUs shall be continued further with only those colleges which submit concepts which are viable.

In the end, CCRH would also like to extend gratitude and appreciation for the selfless work done by all the collaborating colleges for mass distribution of Arsenic Album 30 as preventive medicine during the COVID 19 pandemic last year.

Thanking You,

Yours Sincerely

Dr. Anil Khurana
Director General
